# NITIN DABAS

## FRONTEND | BACKEND | MERN | FULL STACK DEVELOPER

**Full Stack Developer with 3 Months internship Experience.** Hardworking and enthusiastic College Student working towards B.Tech in CS. Web development is the main interest of work- From solving problems to developing new web apps and learning new tech stack.

## EXPERIENCE

○ June 2024- Sep 2024

### Full Stack Developer - SS Tech Services

Onsite | Noida, Uttar Pradesh

- Created **CRM for Sales Department using MERN** Stack with integration of complete **Email Chat System and Ring Central Integration**, Providing all CRUD and additional operations to it such that sales employees can manage all task from single application - Leading to **increase the efficiency of organization by 40%**.
- Developed and enhanced multiple web applications using HTML, CSS, Tailwind CSS, and JavaScript, resulting in responsive and dynamic user interfaces.
- Built 3 Major Projects- **Complete E-Commerce Website**, Enhanced user experience by 30% in a frontend website and the CRM based on MERN with Ring Central and Email System.
- Managed databases using MySQL, integrating data-driven functionalities that improved user engagement by 20%.
- Integrated REST APIs and **payment gateways, including PayPal and Stripe**, facilitating secure transactions.
- Utilized Ant Design for UI component development, improving the visual appeal and usability of applications, leading to increased user satisfaction ratings.
- Bulk Insertion of Data From files to Database for E-Commerce.
- Increases the **Security of CRM by using JWT and providing 3 Panels i.e. Super-Admin, Admin and Agent.**

## PROJECTS

○ JAN,2024 - FEB 2024

### DIGITAL DOCS - (Deployed link)

- Full Stack Development- **MERN Stack, Tailwind CSS and socket.io**
- Similar functionality of Google Docs like real time screen sharing, **Rich text editor and Saving functionality.**
- **Real Time screen sharing.**
- Implementation of **Token Authentication to increase 90% security for backend .**
- **socket.io connectivity to connect.**
- Not Responsive as it is only for desktop.
- **Working:** An administrator establishes a connection to a URL in the absence of other users, notifies other users of the request, has the authority to approve or deny it, and exchanges data and content while preserving the shared document.

## Achievements

### Hackathon @BVP5.0

- Participated in HACK@ BVP 5.0 in Bharti Vidyapeeth DELHI.
- Comes under top 30.
- Trying to create prototype similar to google maps.
